

The logo for AUT (Auckland University of Technology) is displayed in white, bold, sans-serif capital letters on a black rectangular background. The background of the entire page is decorated with a pattern of green chevron arrows pointing upwards and to the right.

POSTGRADUATE STUDY OPTIONS

REHABILITATION PATHWAY

2020–2021

Many practitioners find the skills and knowledge they develop through their undergraduate qualification are necessary, but not sufficient, to manage the complexities of rehabilitation practice. In our postgraduate rehabilitation pathway, we help you explore some of these complexities and then apply your new knowledge in your practice. This pathway is intended for rehabilitation practitioners working with a range of patient populations, across a range of practice settings.

- We offer the benefits of connecting on campus with lecturers and peers at block courses, alongside the flexibility of online and self-directed learning.
- Our papers are delivered by lecturers from a range of disciplines who are leaders in rehabilitation research.
- Course content is continually updated in response to current research and engagement with industry.
- Our focus is on up-to-date evidence-based learning with immediate application to practice

PRACTICE
LEADERSHIP
RESEARCH

Papers offered in the Rehabilitation pathway include:

- **Concepts of Rehabilitation**
RHAB805 (15 points)
- **Innovative Strategies: Engagement in Rehabilitation**
RHAB812 (15 points)
- **Vocational Management and Rehabilitation**
RHAB802 (30 points)
- **Disability and Health**
